CHI SIAMO

30 ANNI

Al servizio dei nostri clienti

Abbiamo avviato la nostra attività nel 1992 come Bergamo Ceramiche diventata nel 2020 ITALIAN FLOOR DESIGN al lancio della nostra propria gamma di piastrelle in gres porcellanato e legno naturale. Sin dalla fondazione ci siamo distinti per la capacità di offrire il meglio in ogni categoria, e su questo facciamo la differenza per i nostri clienti.

Nella zona del nord d'Italia, ITALIAN FLOOR DESIGN è sinonimo di servizio e prodotti di alta qualità. L'eccellenza è sempre stato il nostro obiettivo sin dall'inizio, e continua a esserlo tutt'oggi, scegliendo per i nostri clienti collezioni, formati e soluzioni che permettono la maggior flessibilità creativa disponibile sul mercato ed il giusto prezzo così da soddisfare ogni necessità.

Assistenza professionale e continua innovazione sono le nostre armi. Ogni giorno portiamo questi valori sul tavolo dei nostri clienti sia professionisti che privati in cui trovano sempre nelle nostre sedi il massimo denominatore qualitativo.

«Non è solo servizio...Ma innovazione, ricerca, dedizione ai dettagli, soluzioni personalizzate. Dobbiamo essere in grado di soddisfare sempre»
Dario Gusmini [Fondatore]

Gres Porcellanato:

Oltre 100 collezioni disponibili in molteplici formati fino alle grandi lastre

Legno Naturale:

In parquet clip on di facile installazione, su misura e personalizzati

Resine decorative:

Abbinare ai colori delle collezioni ed interamente personalizzabili

Soffitti tesi:

Distribuzione nord Italia e Messico del marchio leader Barrisol

Con la produzione dei pavimenti personalizzati appositamente disegnati e sviluppati per i grandi marchi italiani ed esteri, nasce nel 2020 la linea di prodotti a marchio ITALIAN FLOOR DESIGN.

Proiettata e sviluppata internamente ad oggi il catalogo IFD conta oltre 20 collezioni con la particolarità di offrire **piena libertà creativa** agli architetti e progettisti.

Italian Floor Design ad oggi offre nel proprio catalogo di produzione propria:

- [Gres porcellanato](#)
- [Pavimenti in legno naturale](#)
- [Resine decorative](#)

In collaborazione con l'azienda leader BARRISOL offriamo soffitti tesi

**L'idea è semplice a dire il vero...
Offrire massima libertà creativa e zero compromessi così che i nostri clienti possano esprimere al massimo la loro potenzialità.**
Grazie a questa semplice missione che vantiamo tra i nostri clienti alcuni tra i più importanti architetti, marchi e costruttori di Italia ed all'estero.

ITALIAN FLOOR DESIGN

"Assoluta libertà creativa senza compromessi" Ogni collezione **ITALIAN FLOOR DESIGN** è disponibile in molteplici formati. Lasciati ispirare dalla vasta gamma di prodotti in gres porcellanato messi a disposizione nel nostro catalogo. Soluzioni moderne, di design o classiche. Scegli l'effetto o il colore che più risponde alle tue necessità di disegno.

Con una nutrita rassegna di prodotti altamente qualificati, **ITALIAN FLOOR DESIGN** conferma di essere una storica ed innovativa realtà dell'universo ceramico italiano. Solo prodotti al "Top di gamma" ed un servizio al cliente professionalmente elevato e dinamico per soddisfare un mercato particolare sempre più esigente ed in continuo cambiamento.

Il gres porcellanato è un materiale compatto, resistente e caratterizzato da una porosità molto bassa e quindi da un valore di assorbimento di acqua praticamente nulla.

technical project

Pratico e facile da posare in cinque sistemi di posa diversi.
I progettisti hanno finalmente a disposizione uno strumento nuovo e rivoluzionario che offre loro molteplici possibilità di installazione sia per superfici esterne che interne.
Si tratta del sistema 2cm che può essere posato sia con metodi tradizionali su massetto per pavimenti carrabili, che a secco con posa su sabbia, ghiaia o fondi erbosi, in quanto resistente, ingelivo, antiscivolo ed inattaccabile dalle muffe.
Negli ultimi tempi, particolare rilevanza e successo sta ottenendo la posa a pavimento sopraelevato con supporti semplici od autolivellanti. La fortuna di questo sistema è sancita oltre che dalla elevata resistenza ai carichi ed ai vari agenti chimici ed atmosferici, dall'estrema facilità e dalla elevata velocità di posa.

Useful and easy to install, with five different laying systems. Designers engineers can finally count on a revolutionary new instrument that offers a wide range of installation options for both indoor and outdoor surfaces. The 2cm system can be installed using traditional methods on top of slabs for vehicular areas, or dry-laid on sand, gravel or grass, because it is hard-wearing, frost-resistant, slip-resistant and unaffected by mould. Increasingly widespread and successful lately is the installation of the material on raised floors with simple or self-levelling supports. The beauty of this system lies not only in its excellent load resistance and its resistance to the various chemical agents and weather conditions, but also in how quick and easy it is to install.

Pratique et simple à poser suivant cinq différents systèmes de pose. Les concepteurs ont enfin à leur disposition un instrument nouveau et révolutionnaire qui leur offre de multiples possibilités d'installation aussi bien pour des surfaces externes qu'internes. Il s'agit du système 2cm qui peut être posé aussi bien suivant des méthodes traditionnelles sur fondation pour les sols carrossables qu'à sec avec une pose sur sable, sur gravier ou sur surfaces en herbe, dans la mesure où il est résistant, ingélif, anti-glisser et inattaquable par les moisissures. Ces derniers temps, la pose surélevée à l'aide de supports simples ou auto-nivelants rencontre un grand intérêt et succès. L'attrait pour ce système s'explique, outre par sa résistance élevée aux charges et aux divers agents chimiques et atmosphériques, par l'extrême facilité et la véritable rapidité de sa pose.

Praktisch und einfach mit fünf verschiedenen Verlegesystemen verlegbar. Den Planern steht endlich ein neues, revolutionäres Instrument zur Verfügung, das ihnen zahlreiche Installationsmöglichkeiten für Oberflächen sowohl im Außen- als auch im Innenbereich bietet. Es handelt sich um das System 2cm, das sowohl mit traditionellen Methoden auf Estrich für befahrbare Böden, als auch für die Verlegung auf Sand-, Kies- oder Gras-Untergründen verwendet werden kann, da es beständig und rutschhemmend ist und nicht von Schimmel angegriffen wird. In letzter Zeit wird den Doppelböden mit einfachen oder selbstnivellierenden Trägern immer mehr Bedeutung beigemessen. Seinen Erfolg hat dieses System außerdem der hohen Belastbarkeit sowie der Chemikalien- und Witterungsbeständigkeit und der extrem leichten und schnellen Verlegung zu verdanken.

Posa sopraelevata
Questa nuova prospettiva progettuale di posa non prevedendo l'uso di malte o collanti, rende il pavimento immediatamente fruibile. Favorisce l'isolamento termico ed acustico, riduce eventuali dislivelli o movimenti strutturali del pavimento oltre a permettere il passaggio ispezionabile di cavi e tubazioni.

Raised installation
This new project option does not require the use of mortars or adhesives, thus ensuring the floor can be used immediately. It improves thermal and acoustic insulation, reduces any unevenness or structural movements of the floor and allows the inspection of cables and pipes running below it.

Posa a secco su erba
Questo tipo di posa riesce ad ottenere particolari ed eleganti effetti estetici a seconda di come si dispongono le lastre sul manto verde. Dal lontano Oriente ci arrivano innumerevoli idee e suggerimenti per una nuova e creativa arte dei giardini.

Dry laying on grass
This type of installation allows a distinctive, elegant appearance, depending on how the tiles are laid on the grass. From the Far East come a host of ideas and suggestions for a new, creative art of landscape gardening.

Posa su massetto con colla
Normalmente utilizzabile per pavimentazioni esterne carrabili pubbliche e private, questa soluzione, grazie alle sue eccellenti prestazioni tecniche, garantisce la massima resistenza a qualsiasi carico e sollecitazione, ideale ogni qualvolta ci sia la necessità di realizzare superfici ad elevate performance tecniche e di resistenza.

Laying on screed with adhesive
Normally used for outside vehicular surfaces in both public and private areas, the excellent technical performance guaranteed by this solution allows for maximum resistance to any type heavy duty loaded or stress, ideal option in all cases where surfaces are required to offer excellent technical performance and resistance.

Posa a secco su ghiaia
Veloce, pratica, facile da installare, removibile e riposizionabile, questa posa è oltretutto ecocompatibile in quanto non utilizza alcun tipo di malta o colla.

Dry laying on gravel
Quick, practical and easy to install, removable and replaceable, this laying system is eco-friendly too since it requires no mortar or glue of any kind.

Posa a secco su sabbia
Anche questa soluzione riduce i costi ed i tempi di applicazione ed offre una soluzione rapida nel pieno rispetto dell'ambiente. L'elevata facilità esecutiva esclude inoltre l'impiego di un oneroso personale specializzato.

Dry laying on sand
This solution also cuts costs and working hours, it is fast and eco-friendly. The high ease of execution also excludes the use of onerous specialized personnel.

Pose surélevée
Ne prévoyant pas l'emploi de mortiers ou de colles, cette nouvelle solution de pose rend le sol immédiatement utilisable. Elle favorise l'isolation thermique et acoustique, réduit les éventuelles dénivellations ou mouvements structuraux du sol, en plus de permettre le contrôle du passage des câbles et des tuyauteries.

Pose à sec en appui sur pelouse
Ce type de pose parvient à obtenir des effets esthétiques particuliers et élégants en fonction de la disposition des plaques sur la couche d'herbe. D'innombrables idées et suggestions pour un art du jardin, nouveau et créatif, proviennent du lointain Orient.

Pose sur chape avec de la colle
Normalement utilisable pour les sols carrossables extérieurs publics et privés, cette solution, grâce à ses excellentes performances techniques, garantit la résistance maximale à toute charge et sollicitation, idéale à la nécessité de réaliser des surfaces aux performances élevées en matière de technique et de résistance.

Pose à sec sur gravier
Rapide, pratique, simple à installer, amovible et repositionnable, cette pose est surtout éco-compatible dans la mesure où elle n'utilise aucun type de mortier ou de colle.

Pose à sec sur sable
Cette solution aussi réduit les coûts et les temps d'application et offre une solution rapide tout en respectant l'environnement. La grande facilité d'exécution exclut en outre l'utilisation onéreuse d'un personnel spécialisé.

Verlegung als Doppelboden
Dank dieser planerisch neuen Verlegungsart ist der Fußboden sofort nutzbar, da keinerlei Verwendung von Mörteln oder Klebern vorgesehen ist. Die Wärme- und Schalldämmung wird begünstigt, eventuelle Höhenunterschiede oder strukturellen Bewegungen des Fußbodens werden ausgeglichen und die Kabel und Rohre können durchgeleitet und inspiziert werden.

Trockenverlegung auf Gras
Mit dieser Verlegeart kann man je nachdem, wie man die Platten auf der Grünfläche anordnet, spezielle elegante ästhetische Effekte erzielen. Aus dem fernen Orient erhalten wir zahlreiche Ideen und Ratschläge für eine neue, kreative Gartenkunst.

Verlegung auf Estrich mit Kleber
Normalerweise wird diese Lösung, die dank ihren ausgezeichneten technischen Leistungen ein Maximum an Beständigkeit gegenüber allen Belastungen und Beanspruchungen gewährleistet, für befahrbare öffentliche und private Böden im Freien verwendet, ideale Antwort in allen Fällen, in denen der Bedarf besteht, besonders beständige Oberflächen mit hohen technischen Leistungen zu verwirklichen.

Trockenverlegung auf Kies
Schnell, praktisch und einfach zu installieren, entfernbar und wiederverlegbar: Diese Art der Verlegung ist aber vor allem umweltverträglich, da keinerlei Mörtel oder Kleber zum Einsatz kommt.

Trockenverlegung auf Sand
Auch diese Lösung trägt zur Senkung der Kosten und der Verlegezeiten bei und stellt eine schnelle, umweltschonende Art dar. Da die Durchführung besonders einfach ist, muss kein Fachpersonal eingesetzt werden.

Posa sopraelevata

2cm

Raised installation / Pose surélevée / Verlegung als Doppelboden

Tipologia di supporti per la posa sopraelevata
Type of supports for raised floor laying
Typologie de supports pour la pose surélevée
Trägerart für die Verlegung als Doppelboden

I supporti portanti di tipo fisso, regolabile o autolivellante, rappresentano la struttura di sostegno delle lastre in grès porcellanato del sistema 2cm.

Tali supporti consentono la realizzazione, su qualsiasi sottofondo, di pavimenti ispezionabili, removibili ed esteticamente perfetti.

Prima della posa si consiglia di controllare le condizioni del massetto, di non superare la quota di sopraelevazione di oltre 40 mm e di prevedere una fuga minima tra le piastrelle di 4 mm.

Per piastrelle di grande formato si consiglia inoltre l'impiego di un quinto supporto al centro della lastra per meglio distribuire i carichi sul piano di calpestio.

2cm system porcelain stoneware tiles can be supported by fixed, adjustable or self-levelling bearing supports.

These supports allow for the creation, on any base, of flooring that can be removed and inspected, guaranteeing a perfect appearance.

Prior to installation, it is advisable to check the conditions of the base slab, not to raise the floor by more than 40 mm, and leave a minimum gap of 4 mm between the tiles.

For large-size tiles, a fifth support in the centre of the tile is recommended, so as to distribute the load more evenly across the tread surface..

Les supports porteurs de type fixe, réglable ou auto-nivelants, représentent la structure de soutien des carreaux en grès cérame du système 2cm.

Ces supports permettent la réalisation, sur toutes les couche de fondation, de sols pouvant être inspectés, amovibles et esthétiquement parfaits.

Avant la pose, il est conseillé de contrôler les conditions de la fondation, de ne pas dépasser le niveau de surélévation de plus de 40 mm et de prévoir un joint minimum entre les carreaux de 4 mm.

Pour les carreaux de grand format, l'utilisation d'un cinquième support au milieu du carreau est recommandée afin de répartir au mieux les charges sur le plan de piétinement.

Die Stützstruktur der Feinsteinzeugplatten des Systems 2cm besteht aus fixen, verstellbaren oder selbstnivellierenden Trägern. Diese Träger ermöglichen die Errichtung von abnehmbaren Fußböden, die inspiziert werden können und ästhetisch perfekt sind, auf jedem Untergrund.

Vor dem Verlegen wird empfohlen, die Bedingungen des Estrichs zu kontrollieren. Beim Verlegen die Höhe von 40 mm nicht überschreiten und eine 4 mm breite Mindestfuge zwischen den Fliesen vorsehen.

Für großformatige Fliesen wird außerdem der Einsatz eines fünften Trägers in der Plattenmitte empfohlen, um die Belastung der Trittfäche besser zu verteilen.

SUGGERIMENTI PER LA POSA FLOTTANTE

Raccomandiamo l'uso di un supporto centrale alla lastra al fine di distribuire in modo omogeneo i carichi.

CONSEILS POUR LA POSE FLOTTANTE

Nous recommandons l'utilisation d'un support central sous la dalle afin de répartir uniformément les charges.

TIPS FOR FLOATING INSTALLATION

We recommend the use of a central slab support in order to distribute the loads equally.

EMPFEHLUNGEN FÜR DIE SCHWIMMENDE VERLEGUNG

Wir empfehlen die Verwendung von in der Mitte anzubringenden Stützen, damit die Belastung gleichmäßig verteilt wird.

REFLUSSO DELLE ACQUE SU POSE SOPRAELEVATE:

Si consiglia di dare una pendenza al pavimento con una percentuale non inferiore all'1%.

WATER RUNOFF ON RAISED FLOORS:

We recommend you give the floor a slight slope (at least 1%).

REFLUX DES EAUX SUR POSES SURÉLEVÉES:

On conseille de prévoir une inclinaison minimale du carrelage de 1%.

WASSERRÜCKFLUSS BEI VERLEGUNG AUF HOHLRAUMBÖDEN:

Es wird empfohlen, dem Fußboden ein Gefälle von mindestens 1% zu geben.

I NOSTRI MARCHI PRIVATI

"non abbiamo sviluppato un
brand ma una
soluzione che non esisteva"

2

CLIPON WOOD

Si tratta del nostro marchio privato sviluppato in collaborazione con i migliori produttori di pavimenti flottanti ed incastro. ClipOnWood offre una vasta gamma di colori, legni, e finiture così come la possibilità di sviluppare ad hoc collezioni dedicate per i clienti più esigenti.

I pavimenti in legno sono un'opzione di pavimentazione classica e senza tempo che aggiunge calore e carattere a qualsiasi casa. Sono realizzati in legno massello o prefinito, che è un materiale naturale e resistente. I pavimenti in legno sono di facile manutenzione, aumentano il valore di una casa e possono essere utilizzati in qualsiasi ambiente, dal soggiorno alla camera da letto.

È sempre possibile personalizzare la collezione se necessario con ordine minimo.

La qualità è un impegno concreto che va oltre le certificazioni e l'essiccazione del legno avviene ancora rigorosamente in modo tradizionale, tutti i materiali utilizzati sono a base ecologica.

3

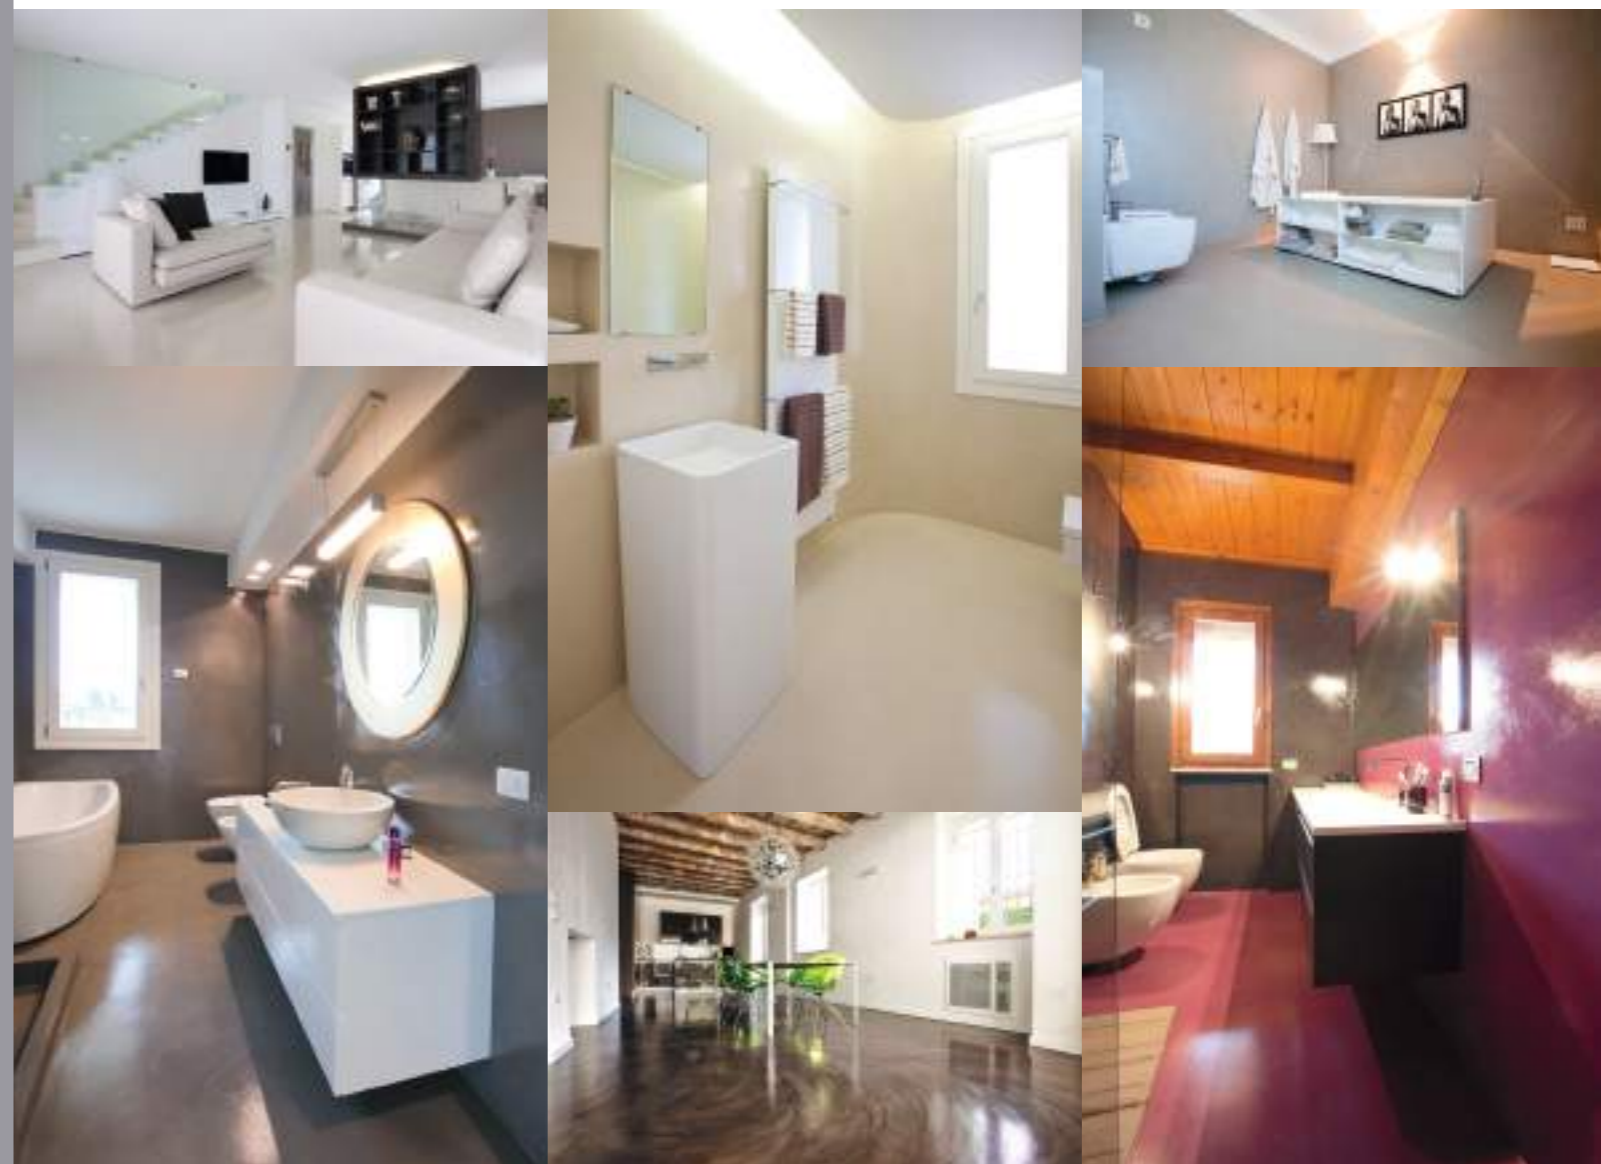

FAP RESINE

Direttamente dal nostro laboratorio, le nostre resine garantiscono non solo il miglior risultato estetico e resistenza, anche la possibilità di infinite soluzioni sulle vostre esigenze per soddisfare ogni creatività e gusto.

I pavimenti in resina epossidica sono una scelta popolare sia per gli spazi residenziali grazie alla loro durata e alla facilità di manutenzione. Sono realizzati mescolando una resina e un indurente, che crea una superficie forte e duratura. I pavimenti in resina epossidica sono resistenti a macchie e umidità, rendendoli adatti a una varietà di ambienti. Sono inoltre disponibili in una gamma di colori e possono essere personalizzati con elementi decorativi.

È sempre possibile personalizzare la collezione se necessario con ordine minimo.

4

BARRISOL

Un soffitto Barrisol è un telo ignifugo classe M1 in PVC che si tende sotto l'effetto del calore lungo il perimetro dei muri grazie ad un sistema di fissaggio specifico. (Brevetto depositato). Grazie all'ampia gamma di profili Barrisol utilizzati per il fissaggio, tutti i tipi di realizzazioni sono possibili, anche forme 3D..

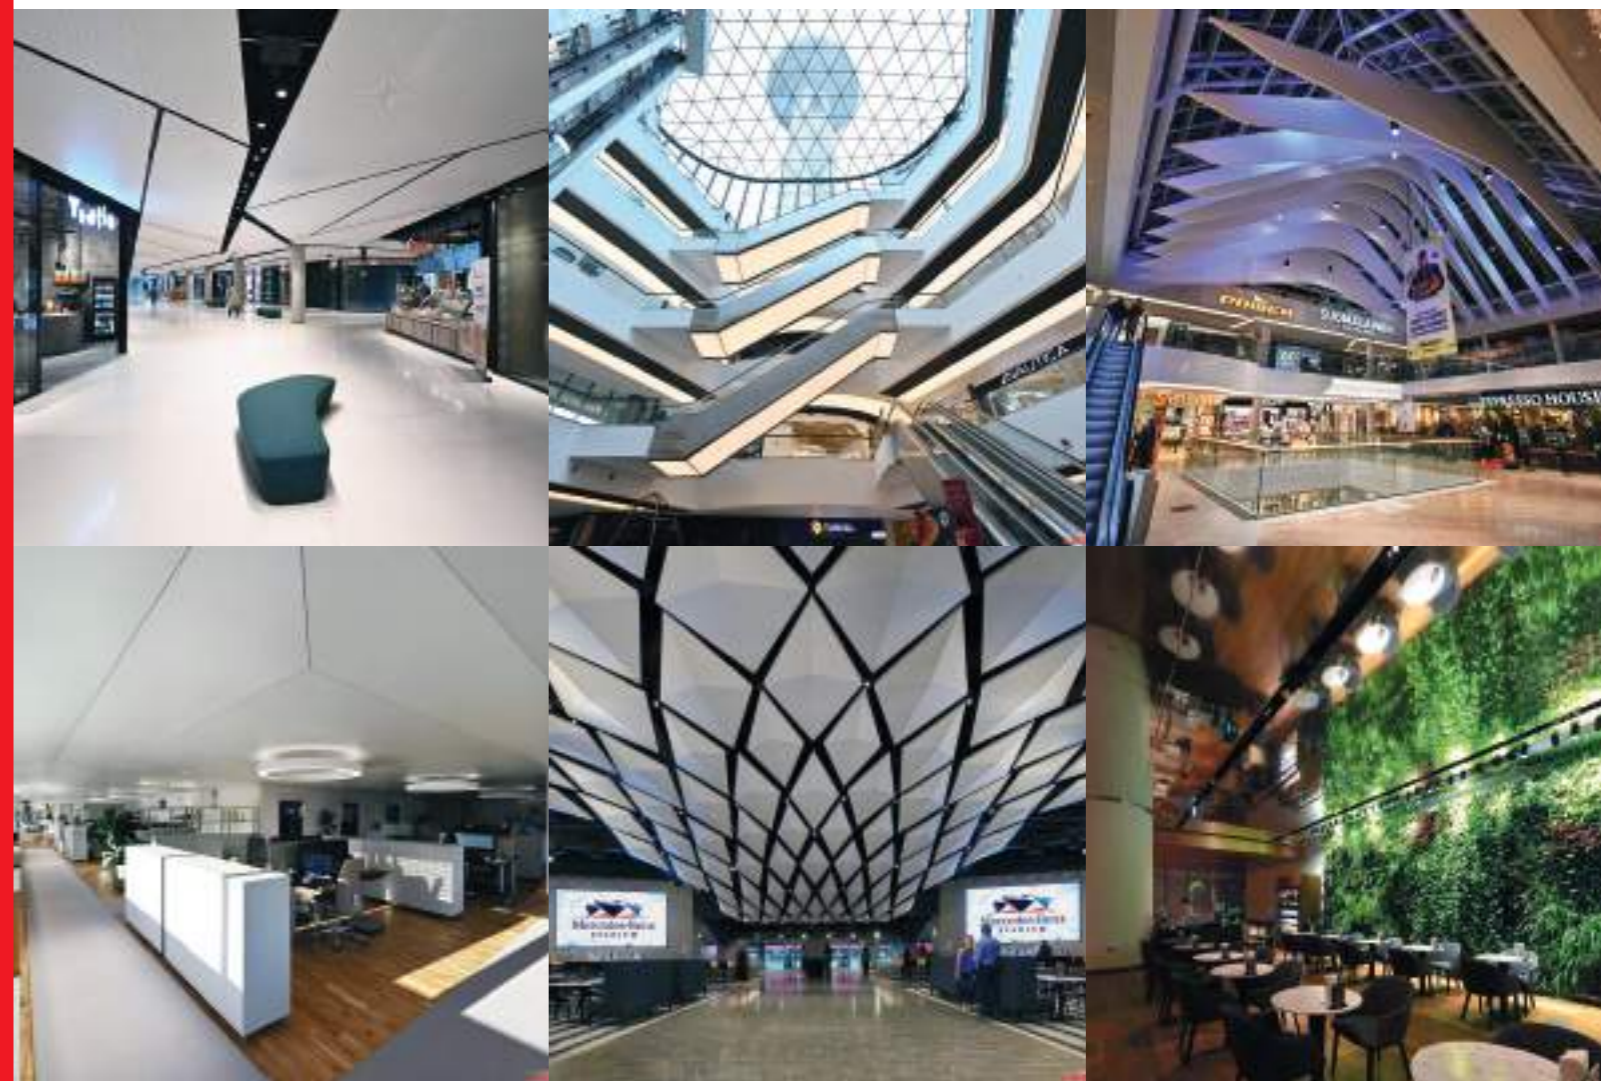

“Barrisol è un leader nel settore dei soffitti tesi e sistemi di controsoffittatura, con oltre 50 anni di esperienza nella produzione di soluzioni innovative e di alta qualità.

E' noto per la sua gamma di prodotti, che include anche illuminazione di design, prodotti per l'acustica e pareti tese. La loro produzione è incentrata sul design e l'arredamento d'interni, dove i soffitti e le pareti diventano centrali nella definizione del tono e dell'atmosfera.

La loro offerta è comprensiva di prodotti per professionisti (architetti, decoratori, designer, etc.) e privati, garantendo una vasta gamma di opzioni per soddisfare ogni tipo di esigenza.”

I soffitti Barrisol si adattano a qualsiasi forma e offrono così ai creativi infinite possibilità di design.

*Installazione da professionisti accreditati Barrisol
Montaggio rapido e pulito, senza opere murarie, ne spostamenti di arredi esistenti.*

5 ITALIAN FLOOR DESIGN CLEANING SYSTEM

IFD CLEAN SYSTEM: un sistema completo progettato per la pulizia e la cura delle superfici in gres porcellanato, parquet e resina. formulato e testato specificamente sui nostri pavimenti e fughe garantisce pulizia e mantenimento dell'aspetto negli anni

IFDONES: La soluzione specializzata per la pulizia dei pavimenti in gres porcellanato. Ideale per la pulizia post-cantiere, IFDONES è la scelta perfetta per rimuovere residui di cemento pesanti, colle e stucco. La nostra formula sviluppata in laboratorio è appositamente progettata per affrontare efficacemente gli accumuli difficili, lasciando i tuoi pavimenti come nuovi. Una soluzione sicura, efficace e facile da usare per le tue esigenze di pulizia dei pavimenti.

IFDCARE: Mantieni i tuoi pavimenti al meglio con IFDCARE, la soluzione di pulizia quotidiana per tutti i tipi di pavimenti. La nostra formula sviluppata in laboratorio è sicura, efficace e facile da usare, rendendo la scelta perfetta per mantenere l'aspetto dei tuoi pavimenti ogni giorno. Di addio ai prodotti chimici aggressivi e dai il benvenuto a una soluzione delicata per l'uso quotidiano, ma resistente per affrontare anche lo sporco più difficile. Che tu abbia legno, piastrelle o qualsiasi altro tipo di pavimento, IFDCARE è la scelta ideale per mantenere i tuoi pavimenti al meglio.

IFDSPECIAL: Porta la pulizia dei tuoi pavimenti a un livello superiore con IFDSPECIAL, la soluzione per impieghi gravosi per tutti i tipi di pavimenti. Progettato per affrontare gli accumuli difficili e ripristinare l'aspetto dei tuoi pavimenti, IFDSPECIAL è la scelta ideale per le attività di pulizia pesanti. Che si tratti di rimuovere lo sporco pesante o di mantenere l'aspetto dei tuoi pavimenti ogni 6 mesi, IFDSPECIAL è la soluzione di cui hai bisogno. La nostra formula sviluppata in laboratorio è sicura, efficace e facile da usare, il che la rende la scelta perfetta per mantenere al meglio i tuoi pavimenti.

IFDFUGA: Sviluppato specificamente per la protezione delle fughe di pavimenti e rivestimenti, previene l'annerimento ed impermeabilizza le stesse svitando così lo svuotamento per via della pulizia ordinaria.

ItalianFloorDesign
